Projects

Codemeet - Full-Stack Interview Platform   **feb'25**

Tech Stack: Next.js, Tailwind CSS,Convex,Clerk.

A real-time web application designed to streamline technical interviews by combining live communication and a collaborative coding environment.

- Developed a robust scheduling system for interviewers to set up and manage interview sessions.
- Built a **collaborative coding editor** with syntax highlighting and multi-user support.
- Enabled secure and responsive user authentication and role-based access.

Personal Portfolio Website – Developer Portfolio   **mar'25**

Tech Stack: Next.js, Tailwind CSS, Framer Motion, Vercel

Designed and developed a modern, responsive personal portfolio to showcase projects, skills, and experience.

- Implemented smooth **animations and transitions** with Framer Motion for an interactive user experience.
- Showcased selected projects with detailed descriptions and links to live demos and GitHub repositories.
